

ABSTRACT

5 The present invention relates to compositions, articles of manufacture, methods of preparation thereof, methods of use thereof, etc., for enhancement of sexual pleasure, conditions, disorders, and diseases related to reproductive physiology and systems, especially of mammalian females. For instance, the present invention relates to all aspects of modulating the female sexual response, including female sexual dysfunction, such as female sexual arousal disorders (FSAD), orgasmic disorders, and sexual pain disorders, and enhancing female sexual pleasure and satisfaction of the female sexual experience. Accordingly, the present invention relates to compositions comprising botanical extracts, active agents, etc., which are useful to treat or affect any of the aforementioned conditions. 10 For example, the present invention relates to a composition, preferably for topical or local use, which comprises one or more of the following ingredients, including, but not limited to, borage seed oil, Angelica pubescens root and other angelica species, Coleus forskohlii extract, vinpocetine, ferulic acid, magnesium, ascorbyl palmitate, capric/caprylic triglyceride, silica, and equivalents thereof. 15
